

DAZZeL Eco Plus

Ultra Concentrate Wastewater Odor Neutralizer

This is the most concentrated and most potent in the DAZZeL Line of odor control products. This product is a blend of essential oils (plant extracts) that binds with volatile malodorous compounds and breaks them down, in an irreversible reaction. The ultra concentrate makes it perfect for very large water volumes, such as lagoons.

DAZZeL Eco Plus works on sulfides, mercaptans, ammonia, septic, and volatile fatty acid odors. This product is not a perfume or masking agent; instead it neutralizes the molecules responsible for the odor. Added to a lagoon it forms a molecular barrier that grabs volatile odors right at the surface, and breaks them down.

Breaks down the odorous molecules

- Not a masking agent

Works great in:

- Lagoons
- Anywhere the most concentrated product is required

Figure 1:

DAZZeL Eco Plus eliminates odor in lagoons by breaking down odor-causing molecules
