

VitaStim Lagoon Line

Easy to Use Lagoon Bacteria Supplement

VitaStim Lagoon Line is a potent blend of 23 essential vitamins, biostimulants, biocatalysts, and select biological species custom blended for wastewater lagoons.

The probiotic blend in VitaStim products promote healthy biological activity in both the indigenous and added bacteria. Pick the formulation below that works best with your lagoon water temperature. The water soluble packets are thrown in from the shore and help to lower BOD, ammonia, TSS, and sludge accumulations.

VitaStim Polar

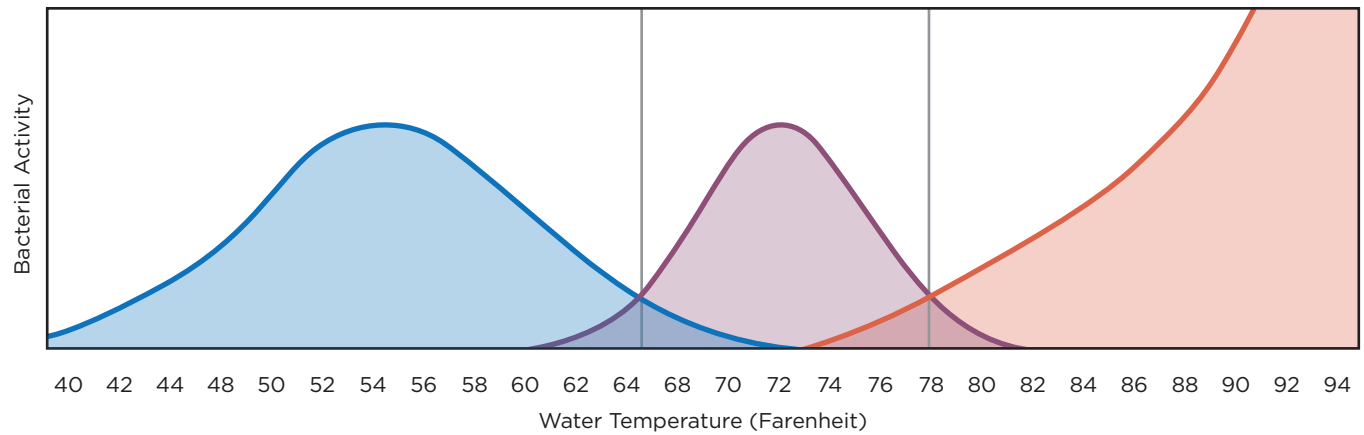

- 40-64° F water temperature
- Cold-loving bacterial cultures
- Lowers ammonia during winter

VitaStim Sludge Reducer

- 65-78° F water temperature
- Clarifies the water column
- Lowers BOD and nitrogen

VitaStim Summer Slam

- 78° F + water temperature
- Highest metabolism bacteria, for mid summer
- Facultative strains work in low DO environments
